Speculation Opens Active, With Irregular Price Changes.

Disappointment Because of the Non-Settlement of the Coal Miners' Strike-People's Gas and Some of the Railways Features in Early uperations-The Industrials Quiet.

NEW YORK Oct. 13 .- The Stock Market today opened fairly active and with small and irregular price changes aprearing in the early dealings.

Some disappointment was felt that the strike of the anthracite coal miners had not been called off at yesterday's convention, and there was also some timidity how the weekly bank statement would be received, as it was commonly apprehended that the remaining surplus reserves of the banks might be wiped out. London was not a factor of weight either in respect of quotations or of opera-

tions from that quarter.

Active features of the market were People's Gas, Pennsylvania, Burlington and Quincy, and Northern and Union Pa-

Comparatively little animation appeared in the local traction group or in the industrial quarter.

The earnings of the Norfolk and Western for the first week of October are quite up to the fine record that the company has made so far this year. There is an increase of \$50,195. From July 1 the increase in gross earnings has been \$605,226. The gross earnings of the Missouri, Kansas and Texas for the same periods show increases of \$16,388 and \$132,551. The Norfolk is not losing any moniey by the strike of the anthracite miners. It is hauling much more than the usual amount of bituminous coal. The camings of the Southern Railway for the first week of October show an increase of \$48,579. The increase since July 1 was \$498,963. The increase of the Texas Pacific for the week was \$31,688 and since January 1 it was \$485,600. The earnings of the Norfolk and Wes-

The Baltimere and Ohio statement of earnings for September is again disap-pointing. A decrease is shown of \$86,561 pointing. A decrease is shown of \$56,501 in the net earnings for the month and a decrease of \$243,418 in the net for the first quarter of the new fiscal year. This showing is, of course, only a poor one when compared with that of last year. Actually, the present business of the system is much better than it was expected it would do, so soon after reorganization, and an excellently profitable one. The

and an excellently profitable one. The Batimore and Ohio securities were amon the strong features of the market yester day, despite the statement, both advancin well and closing with good net gains.

Provisions were weak early under continual liquidation, considerable bear pressure, and lack of support. The attempto buy lard at the decline by the leading bull interests caused a sharp rall and the closing was steady. The legitimate situation remains bullish

Some surprise was cecasioned today to the strength of the Stock Market. It has been expected that with the miners' convention refusing to accept the terms of the operators, and with a bad bank statement assured, the bears would sell stock ment assured, the bears would self stocks short heavily and some long stock would be sacrificed. Instead, prices held their own sturdily during the first hour and a half of the day and boomed nicely after the bank statement caem out. The close was near the top prices of the day and well above the close of yesterday in near-lively parts of the list. ly all parts of the list.

The change of sentiment among the professionals, for this is what has ocurred, may perhaps be explained largely by the much better financial outlook. Gold has started this way from the other side and money rates are still low contrary t all bear predictions. When the ban statement appeared today showing a los of only \$1,700,000 in surplus reserves in stead of the wiping out of the entire surplus, as had been expected, this betterment of the financial outlook became apparent to everybody. It is now extremely

Corrected daily by W. R. Hibbe & C. robable that the reserve will not get be low the legal limit and that call loan rates will not advance beyond 6 per cent if even that figure is reached. Another item in the situation that perhaps has been underestimated by the bears is the necessity on the part of the bull cliques to show a firm front until after the elec-tion. The cliques began several days ago what they called a McKinley boom, in-tending to help the Republican candidate by advancing prices. They met with some resistance from the people who saw that the movement was purely a manipulate one, but have persisted apparently with the idea that a slump now would be dou-bly deplorable for the Republicans. Many believe that this persistent strength in prices this week means that the advance will continue next week. Others look for a reaction at any time. The outlook most uncertain but the most careful br kers continue to advise the purchase of

The bank statement figures were as follows: Reserves decreased \$1.777,975, loans decreased \$9,955,700, specie decreased \$2.535,600, legal tenders decreased \$2.535,600, deposits decreased \$15,822,100, circulation increased \$17,2 800. The immense curtailment of loans is responsible for the comparatively good showing made. The remarkable thing illustrated by this statement is that the people in control of the market must have secured their mon y some time ago on long time lans. Al-though there was the great cutting down of loans it did not cause any decline in prices as such a cut usually does.

the remarkable advance begun two days the remarkable advance begun two days ago, getting as high as 89 1.4, or 8 points above the low price. Nothing new was added to the stories regarding the company and the stock that have been put cut this week. It is still insisted in some quarters that the gas war is over.

Alleged Worthless \$100 Check.

The case against Walter E. Hughes, who was arrested yesterday by Detectives Weedon and Parham on a warrant sworn out by M. G. Jerman, who charging false pretences, was continued in the Police Court, this morning until next Monday. It is alleged that Hughes dealt with Jerman, who conducts a provision store at the corner of Eleventh and I streets, and that a year ago isst June he got Jerman to cash a \$100 check which I proved to be worthless.
